Around Town Speech

Hi and welcome to my wonderful show. It is going to be exciting. I'm your only hostess who can make your life wonderful. Today, I'll show you around my neighborhood in Nagoya. It takes about two hours from Tokyo to Nagoya by shinkansen. As you know, Nagoya is famous for many unique places. There are a lot of places to see and visit. After listening to my speech, I'm sure you will want a docodemo door from Doraemon? First, we will go the Central Towers. Then we will visit the Toyota Building. And finally, we will see Nagoya castle. Are you ready? Let's go!!

First, after coming through Nagoya station's ticket gate, a big twin towers should soon come into your eyes. These towers are called Central Towers and it is famous as tallest tower in Nagoya. You can see the whole city from its observation tower. This view is most beautiful in Aichi. In the Christmas season, they are illuminated and they also have some very big Christmas trees. You can't help to take photos. I watch them with my friends every winter, but you should go with your girlfriend or boyfriend. You can have an unforgettable romantic date.

Next, turn left here and keep your eyes on the right-hand side. You can't miss the Toyota building. This building was newly opened in this spring by the most famous automobile company Toyota. Here you can enjoy shopping, movie, and eating. Have you ever eaten Misokatsu? If not, you can eat there.

Finally, walk straight south until you find Nagoya castle. Do you know who built this castle? Yes, everyone know Ieyasu Tokugawa. The top of this castle, two gold killer whales are shining for you. It costs 600 yen to enter the castle and it is opened from 10am to 5pm.

Nagoya is definitely my favorite city. If you go there, I'll promise you will become addicted to it.
