Talk Show Speech

Hey all you sexy ladies and not so good looking guys! Welcome to our show. I'm your greatest host Tatsuya. Today we have a very special guest. Ren from the famous electrical appliance store Bic Camera. What can I say about Ren? He can sell honey to bees, ice to Eskimos. He sold one million, ONE MILLION air conditioners in his first year as a salesman, and more surprising, he just graduated high school! Currently he is writing his new book that is going to be published this summer, "I Can Sell My Million ACs, But You Can't." Today he will be talking to us about his high quality electrical appliances at home. Now give it up for Ren!
